

Project Name: Medical Inventory Management

Solution Requirements:

Functional Requirements:

Maintain supplier details and purchase orders. Track product stock, pricing, and expiry dates. Generate automated alerts for low stock and expiries. Provide dashboards and reports for monitoring inventory.

Non-Functional Requirements:

System should be scalable for multiple departments. Ensure data security through roles and permissions. Provide easy navigation and user-friendly interface.

System Constraints:

Requires Salesforce Developer Account and internet connectivity. Integration with external APIs is optional for advanced analytics.
